

## Inspire Learning with Eyes *Wide* Open

### Unleash Creativity

Maximize creativity in every student with the StarBoard T-19WX, a wide LCD pen display with the full functionality of an interactive whiteboard. Deliver interactive lessons and write digital notes, while your students view the same visuals projected onto a large screen.

### Illustrate and Interact

Teach concepts the fun way by utilizing a library of interactive tools that can turn static presentation materials into dynamic activities. Mark up images, presentations, and multi-media files with digital inks to illustrate your point and maximize impact on students through technology.

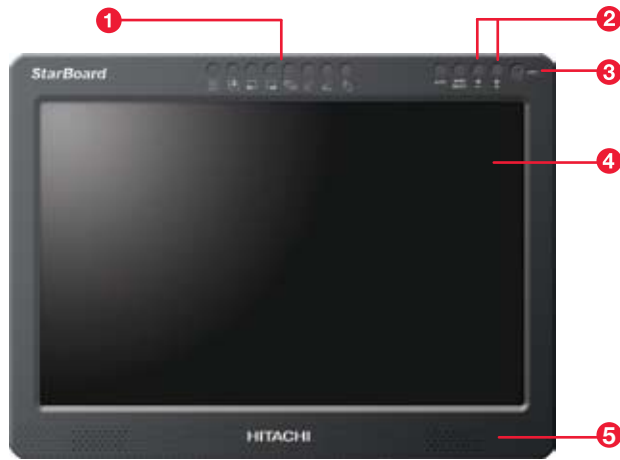

### Designed for Education

The interactive pen display integrates seamlessly into any existing teaching style with its attractive size and low-profile design. Conveniently placed on a desktop or lectern, the bright 19" display provides more working space and a clear image with SXGA resolution that works well with high-resolution LCD projectors.

“With StarBoard systems in their hands, the faculty is more excited than ever to teach... the future certainly looks promising.”

– Mike Poplin, Director at Phoenix College.

## Features

- 1 Function buttons
- 2 Page up/page down
- 3 Power button
- 4 LCD/Active area
- 5 Speakers

## Dimensions
